It is important to realize that “0” is a mathematical artifice brought upon some 000’s years ago by our Mesopotamian cousins [2] to help Humanity further progress in the understanding of the Planet we live on/with. And, it surely did in its own right. However, from Nature/God’s perspective, and in agreement with our long time gone Greek, Han & Hindu Philosophers, “0” or “nothing” is identical to – in resonance with – “everything” or – in mathematical terms - “9r”, i.e the digital root of “9”. So, we have inherited the following down-to-Earth simple equation as a mathematical

definition of nothing↔everything and, in fine, of the origin of our Galaxy:

$$0 \leftrightarrow 1+2+3+4+5+6+7+8+9 = 45 = 4+5 = 9r \rightarrow \text{Evolution [3]}$$

And it is no surprise that nothing↔everything in Nature is reminiscent of the most unique circular solution [4] of that equation, ie *fractal enlightenment*, from the time of its inception to until most recently on an evolutionary scale when all-of-a-sudden Homo sapiens became self-aware/conscious, therefrom evolving to Homo modestis, eventually.

Definition of Mind/Body or „Everything“ (9r)

(as per Nature/God: Spin/AntiSpin, Mass/Electromagnetism & Charge/Gravity)

All 9 (3x3) Yin/Yang Solfeggio frequencies (174/825, 285/714, 396/693, 417/582, 528/471, 639/369, 741/258, 852/147, 963/936Hz) = 0/9r

Light Pixel Spin (396) & Atom Mass (174) / Electromagnetism (825) are in Resonance with 0 (Planck Cst).

Light Pixel AntiSpin (693) & Atom Charge (285) / Gravity (714) are in Resonance with 0.

Mind (Pixels) = Encoded/Imprinted double-leaflet Cell Membrane Omega-396/693-Fatty Acids = Spin (1)/AntiSpin (-1)

Body = Atom (Mass & Charge) / (Electromagnetism & Gravity)

## Ammunitions

A dark spot/hole is in resonance with an infinity of light rays and their interference figures  $0 \leftrightarrow (-1+1) \pm \infty = 9r$  as illustrated by the Double Slit Experiment, and – in fine - there is no BigBang needed per se for this to spontaneously happen as per philosophical observation/derivatization (YinYang, TsimTsoum). No-thing & Every-thing are Resonating-things. It is just how x-things happen to be as per Nature/God. In modern times, it is referred to as Knowledge/Wisdom. It is not that we live a Dream/Nightmare. Humans (Homo modestis) are evolving above that evolutionary standard and are taking control. It rather is a *Serial* and we are emerging as Scenarists/Actors. Whether it is a Romance and/or a Thriller depends on us – each & all of us – only. It started some 70Kyr ago and will last as long as we, *Humans*, want it to last. Ideas come from thin air (nothing) and eventually assemble themselves into action (everything). The Homo modestis/sapiens love/hate binary conflict within each & all of us got its space/time. Cultural selection leaves no ambiguity as to which direction to go from here/now. Together, we are No↔Every-thing ( $\pm \infty$ ), we are our Galaxy, we are Observers/Contributors, as – ironically – historical facts allowing (?), per our own past/outdated definition of Nature/God. Enough?

Leadership is about Humility & Fierce Resolve

**Remember** (as a corollary...no matter how painful it might turn out to be...for a while, only)

Imprinting forthcoming generations of Humans with notions of “Creation” appears to be in contradiction with modern established

Math/Science, Philosophy, Theology & Wisdom and, in fine, might be counter-productive. It might even be/becoming a “wrongdoing” against Humanity to keep doing so [5]. World Children should be given a chance to tune in outside the outdated fear-fed Homo sapiens-derived Nature/God’s box, “Heaven forbid”.
