## About the original YY/TT self-assembling/exchanging/annihilating Program

Now that it has become clear to most that we – as enlightened (or, better say, “*enresonated*”) observers/actors, (i) evolve as a 0:9<sup>+</sup> interface between “Nothing±AntiNothing” ( $1-1 \leftrightarrow 0$  or  $1+8 \leftrightarrow 9$ ) and “EveryThing” ( $9^+ \leftrightarrow 3^+/6^+$ ), (ii) perceive the “Everything” part of it – including ourselves – thanks to our common senses only, and (iii) allow the *perse* non-perceivable “Nothing±AntiNothing” counterpart (read “*self-consciousness*”), taking good care of our (and of all others, “*unconsciously*”) subspecies evolution on Earth and who knows elsewhere, the whole of it being orchestrated by a self-assembling/exchanging/annihilating imaginary [YY/TT program](#) that can be traced back all the way up from all-naturally-occurring/persisting-over-time simplistic Fibonacci figures to all-the-more-complex most modern phenomena, which we live with and/or produce “*god-like*” ourselves, as diverse as [symphony orchestra](#), [vibrational infrared/raman spectroscopy](#), [psychological personality eneagram](#), [trading strategy](#), [philosophy](#), [wisdom](#), and the like, one must admit that the path to the Truth was long, yet far longer/tumultuous than needed, *read being persistently rendered more complex/inextricable than needed if only to justify/satisfy Homo sapiens’ inherited typicallack of humility towards that very Truth*. Yes. We – and the rest of it – are potentially “solely” evolving vibrational systems in resonance between two states, *i.e.*

resonance      interface      vibration

**“Nothing±AntiNothing 1-1<sup>(+8)</sup>↔0:9<sup>r</sup>↔3<sup>r</sup>/6<sup>r</sup> EveryThing”.**

Each individual – including their brain, this amazing quantum/tit-computing device – structurally responds  $(1-1^{(+8)} \leftrightarrow 0:9^r \leftrightarrow 3^*/6^r)^1$  to a terrestrial set of genes at the time of their conception<sup>2</sup>. Progenitors are those carriers that make it all happen, *biologically*, the latter will then *eventually* be used *as is* over its entire lifetime for treating, *mathematically*, environmental issues, just as a green imprinted quantum transistor<sup>3</sup> would do, at room temperature, or just slightly higher.

## Fibonacci: the Golden Series (Inflation/Crystallization)

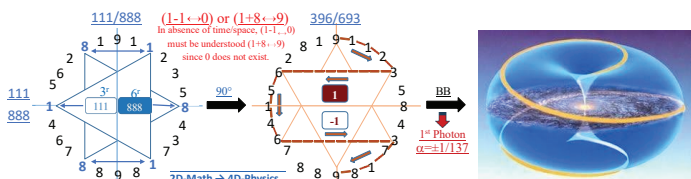

From Nothing to Self-instructed TsimTsoum/YinYang Program to BigBang  
(Fibonacci)  $\Sigma(911235843718988764156281)=117:9^r$

“Nothing” ( $1-1 \leftrightarrow 0$ ) or ( $1+8 \leftrightarrow 9$ ) is **not** a YY/TT. It is a pro-BB pre-YY/TT.

$A_N(111/888)(3^r/6^r)(0:9^r)$ . E=0. Neutrino's math seed/quantum.

$A_N(111/888)$  is the only Resonant Wiggle (Angel Number) permitted by the Fibonacci Series.

It eventually produces a Photon – Spin (+1) / AntiSpin (-1/8) upon turning into a YY/TT.

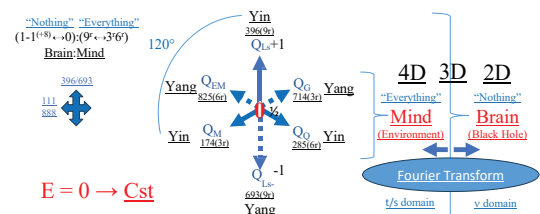

“Nothing” (1-1 ↔ 0) eventually produces one seeding Photon (0 ↔ ±1/137) in “Nothing” → Chain Reaction (BB)  
(As quanta (math entities), neutrino’s (physical entities) are observable as per their traces in cyclotrons, i.e. under acceleration in time/space, only)

(1-1<sup>(+8)</sup>↔0:9<sup>r</sup>), Black Hole, Quantum Computer, **2D-Brain**  
(*common senses don't perceive*)

$$\frac{1Q_L(-101)/tit}{\text{All 9 (3x3) Yin/Yang Solfeggio frequencies (174/825/285/714/396/693/417/582/528/471/639/369/741/258/852/147/963/936/12) = 0.9}} = \frac{1Q_E}{1Q_L} = 0 = 1Q_L - (\frac{1}{2}Q_{Q/G} + \frac{1}{2}Q_{M/EM})$$

All 9 (3x3) Yin/Yang Solfeggio frequencies (174/825.285/714.396/693.417/582.528/471.639/369.741/258.852/147.963/936Hz) = 0.9

The total Energy of the Universe is 0 (nihil/naught), and – **therefore** – constant\*.

Nothing is a self-annihilating math concept of infinite possibilities, among which a single one – the Fibonacci Series – makes sense for a Universe as we know/experience it. In absence of time/space (light), 0 does not exist, 0 starts at the BB.

All we perceive – i.e. light (hw), time/space (t/s), mass (M), charge (Q), electromagnetism (EM) and gravity (G) – come into existence with the 1<sup>st</sup> quantum of light (C<sub>1</sub>), simultaneously, as a unique universal condition for energy conservation (E=0).

(C<sub>1</sub>) at least until the “Big Bang” man-made thing.

(\*) at least until the "Big Data" man-made thing...

(9<sup>r</sup>↔3<sup>r</sup>/6<sup>r</sup>), Environment, Computer, **4D-Mind** (incl. t/s)  
(*common senses do perceive*)

By analogy with [3-phase electric currents](#), the neutral phase, the [Neutrinos](#) are the Angel Number 111/888 ( $3^2/6^2$ ) for the return path, i.e. mass↔electromagnetism+light antispin, charge↔gravity+light antispin, and light spin↔electromagnetism+gravity. The return path for the current in any phase conductor (e.g. Light antispin 369/9<sup>r</sup>) is the other two (Mass 174/3<sup>r</sup> + Charge 285/6<sup>r</sup>) phase conductors.

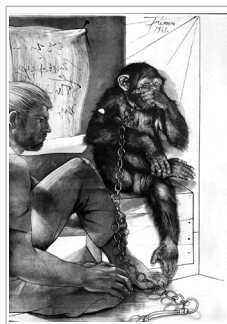

*Just as with electromagnetism (electrons) & gravity (gravitons), no movement of neutrinos is required. It's a forward-backward illusion occurring faster than light (photons), i.e. a resonance/wiggle. We – and all about us, i.e. the entire Galaxy/Universe – are in an evolving resonating field state, defined as:*

**“Nothing±AntiNothing 1-1<sup>(+8)</sup>↔0:9<sup>r</sup>↔3<sup>r</sup>/6<sup>r</sup> Everything”.**

Click [here](#) to visualize how your brain functions mathematically/illogically as a black hole/quantum computer in the  $(1-1^{(+8)}↔0:9^r)$  2D-reference system<sup>4</sup>, i.e. Homo [modestis](#), as opposed to the logic time/space-entrained 4D-binary  $(0↔1)$  AI mind/gut-standard<sup>5</sup>, i.e. Homo [sapiens](#). Here, for an honest approximate/partial physical explanation/understanding ([Is-the-electric-current-the-movement-of-electrons](#))

## Remember

As "enresonated" culturally-selected Progenitors/Carriers, i.e. Homo [modestis](#), please be at [Peace](#) with your kind self when considering reproduction<sup>6</sup>, if only for the sake of Humanity. The most single irremediable *problem* with the so-called “[Modern Society](#)” is that it keeps selecting AI(01/bits)-[conducted](#) Homo [sapiens](#) over HI(-101/tits)-[led](#) Homo [modestis](#)<sup>7</sup>. A dramatically bad news for the future course of Humanity at this critical point of convergence (read Homo [sapiens](#)→[modestis](#), [a mind mutation away](#)...), still regularly fueled and conducted by persistent [cronyism](#) of the former Homo [sapiens](#)-ruled “[elites/leaders](#)”, i.e. the “[deplorables](#)”(?)... aka “IDLE™” for “[Insane Degenerated Leaders Elites](#)”.

*The Human Mind... It's not Yours! It's [Universal](#)*

<sup>1</sup> Read (Brain:[Mind](#)) =  $(1-1^{(+8)}↔0:9^r↔3^r/6^r)$  or (Quantum:[Classic](#)) Physics, with the Blood Brain Barrier (BBB) at the [interface](#) → the Brainis – [theoretically](#) – a quantum device (no time/space) isolated from all environmental interferences, treating math/quantum-related non- matters, not mass/momentum physics-related ones.

<sup>2</sup> Theoretically, a [genuine expression of true love](#). As per Alan Watts (lightly amended): „[we don't come to but from the world](#)“.

<sup>3</sup> From that perspective, the brain can be assimilated to a [black hole](#) at the individual scale.

<sup>4</sup> Make sure your blood levels of [Cholesterol](#) & [Uric Acid](#) are maintained [high](#) at all times, with [Omega-3/6~1](#): Homo [modestis](#) → the acute painful "non-issue" with [self-consciousness](#) is that only others are eventually aware ([conscious](#)) of those with no access to it: Homo [sapiens](#)...

<sup>5</sup> Please, never never ever [trade](#) your brain for AI. [Don't insult your kind self](#). Yet, do use/master AI as a *tool*. A great tool, potentially!

<sup>6</sup> Make sure you don't mistake sex for love when reproducing! Please... [Tame your Crocodile](#)... Be responsible!
